

Purpose

This procedure guides student use of digital devices and online services at our school. Our school acknowledges the educational value of digital devices and online services in supporting and enhancing educational outcomes and student wellbeing. We also recognise they may cause harm if used inappropriately and that we need to support our students to use them in safe, responsible and respectful ways.

Scope

This procedure provides a consistent framework for the safe, responsible and respectful use of digital devices and online services by students in our school. It sets out the shared responsibilities of school staff, students and parents and carers. It also provides a framework to manage potential risks to student safety and wellbeing. This procedure covers student use of digital devices and online services in school-related settings, including on school grounds, at school-related activities and outside of school where there is a clear and close connection between the school and the conduct of students. This procedure covers the use of school-provided and personal digital devices and all online services.

Our School's Approach

At Bonnyrigg Heights PS our year 5 and 6 learning environments include the Bring Your Own Device (BYOD) strategy. The BYOD strategy provides an extension to student learning, enabling students to bring their devices from home to include in their learning environment.

At the beginning of each day, students will keep their devices inside their school bags until they reach their classroom. Devices will be locked in classrooms during recess and lunch, with no student being allowed to re-enter the classroom during these times, unless accompanied by a teacher. The student agrees to not take their device into the school playground unless it is being used for class purposes. The student agrees to make sure they have their device with them at the end of the school day, ensuring it is not left at school overnight.

If students bring phones to school, they are to pass them to their class teacher when they enter their classroom at the beginning of the day to have them locked in the storage box in the storeroom. Phones will be handed back to students at the end of the day.

Exemptions

An exemption from parts of this policy or the school procedure can be requested from the principal by parents, carers, school counsellors and other student support staff, and, if required, students themselves. This may cover times when or places where use would otherwise be restricted. Except where required by law, the school principal has discretion to consider and approve exemptions and to choose which parts of the school procedure the exemptions applies.

Consequences for inappropriate use

- The student is given a warning from a teacher or other staff member.
- The student is referred to the Assistant Principal or Deputy Principal.
- The student's access to the school network is restricted through the EMU tool on the DoE portal.
- The teacher or principal arranges a meeting with the student's parent or carer.
- The student's digital device is confiscated by a staff member.
- Confiscated devices are returned at the end of class.
- Suspension and possible Police and/or Child Wellbeing involvement for serious incidents.

Contact between students and parents and carers during the school day

Should a student need to contact a parent or carer during the school day, they must approach the administration office and ask for permission to use the school's phone. During school hours, parents and carers are expected to only contact their children via the school office.

Responsibilities and obligations

For students

- Be safe, responsible and respectful users of digital devices and online services, and support their peers to be the same.
- Respect and follow school rules and procedures and the decisions made by staff, knowing that other schools may have different arrangements.
- Communicate respectfully and collaboratively with peers, school staff and the school community and behave in the ways described in the Behaviour Code for Students.

For parents and carers

- Recognise the role they play in educating their children and modelling the behaviours that underpin the safe, responsible and respectful use of digital devices and online services.
- Support implementation of the school procedure, including its approach to resolving issues.
- Take responsibility for their child's use of digital devices and online services at home such as use of online services with age and content restrictions.
- Communicate with school staff and the school community respectfully and collaboratively as outlined in the 2018 School Community Charter (<https://education.nsw.gov.au/public-schools/going-to-a-public-school/school-community-charter>).
- Switch off or put their digital devices on silent when at official school functions, during meetings and when assisting in the classroom.
- Provide digital devices that meet school specifications where a school is participating in a bring your own device program and complete any related paperwork.

For the principal and teachers

- Deliver learning experiences that encourage safe, responsible and respectful use of digital devices and online services. This includes: establishing agreed classroom expectations for using digital devices and online services, in line with this procedure and departmental policy; identifying strategies to ensure that all students are able to engage in classroom activities including strategies to accommodate students without a digital device; reading and abiding by the Terms of Service for any online services they use in teaching, including those limiting use by age; and educating students about online privacy, intellectual property, copyright, digital literacy and other online safety related issues.
- Model appropriate use of digital devices and online services in line with departmental policy.
- Respond to and report any breaches and incidents of inappropriate use of digital devices and online services as required by school procedures, departmental policy and any statutory and regulatory requirements. This includes: reporting the creation, possession or distribution of indecent or offensive material to the Incident Support and Report hotline as required by the Incident Notification and Response Policy and Procedures and consider any mandatory reporting requirements; working with the department and the Office of the eSafety Commissioner (if necessary) to resolve cases of serious online bullying and image-based abuse; and following the school's behaviour management plan when responding to any incident of inappropriate student behaviour relating to the use of digital devices or online services.

- If feasible and particularly as issues emerge, support parents and carers to understand strategies that promote their children's safe, responsible and respectful use of digital devices and online services.
- Participate in professional development related to appropriate use of digital devices and online services.

For non-teaching staff, volunteers and contractors

- Be aware of the department's policy, this procedure and act in line with the conduct described.
- Report any inappropriate use of digital devices and online services to the principal, school executive or school staff they are working with.

Communicating this procedure to the school community

Students:

- Classroom teachers will inform their students about this new procedure.

Parents and carers:

- This procedure can be accessed electronically via the school's website and in hardcopy at the school's administration office.

Complaints

If a student, parent or carer has a complaint under this procedure, they should first follow our school's complaints process. If the issue cannot be resolved, please refer to the Department's guide for making a complaint about our schools (<https://education.nsw.gov.au/about-us/rights-and-accountability/complaints-compliments-and-suggestions>).

Review

The principal or delegated staff will review this procedure annually.

Appendix 1: Key terms

- Digital citizenship refers to the skills and knowledge a person needs to effectively use digital technologies in a positive way so they can participate in society, communicate with others, and create and consume digital content.
- Digital devices are electronic devices that can receive, store, process and share digital information and connect to applications (apps), websites and other online services. They include desktop computers, laptops, tablets, smartwatches, smartphones and other devices.
- Educational purpose is any use approved by school staff that supports student learning, wellbeing and educational outcomes.
- Online bullying involves using technology such as the internet or mobile devices to bully someone. Bullying behaviour has three key features. It involves the intentional misuse of power in a relationship. It is ongoing and repeated, and it involves behaviours that can cause harm.
- Online safety is the safe, responsible and respectful use of digital media, devices, other technology and online services.
- School-related settings include school grounds, school-related activities and outside of school where there is a clear and close connection between the school and the conduct of students. This connection may exist in situations where: there is discussion about school taking place outside of school hours; a student is wearing their school uniform but is not on school premises; a relationship between parties commenced at school; students are online in digital classrooms; and where online contact has flow on consequences at school and duty of care requires the school to respond once an incident is reported.

Appendix 2: What is safe, responsible and respectful student behaviour?

Be SAFE

- Protect your personal information, including your name, address, school, email address, telephone number, pictures of you and other personal details.
- Only use your own usernames and passwords, and never share them with others.
- Ask a teacher or other responsible adult for help if anyone online asks for your personal information, wants to meet you or offers you money or gifts.
- Let a teacher or other responsible adult know immediately if you find anything online that is suspicious, harmful, inappropriate or makes you uncomfortable.
- Never hack, disable or bypass any hardware or software security, including any virus protection, spam and filter settings.

Be RESPONSIBLE

- Follow all school rules and instructions from school staff, including when using digital devices and online services.
- Take care with the digital devices you use: make sure the devices you bring to school are fully charged each day and are stored appropriately when not in use; understand that you and your parents and carers are responsible for any repairs or IT support your personal devices might need; make sure the devices you bring to school have the latest software installed and take care with the school-owned devices you share with others, so that other people can use them after you.
- Use online services in responsible and age-appropriate ways: only use online services in the ways agreed to with your teacher; only access appropriate content and websites, including when using the school's filtered network and personal, unfiltered networks; and do not use online services to buy or sell things online, to gamble or to do anything that breaks the law.
- Understand that everything done on the school's network is monitored and can be used in investigations, court proceedings or for other legal reasons.

Be RESPECTFUL

- Respect and protect the privacy, safety and wellbeing of others.
- Do not share anyone else's personal information.
- Get permission before you take a photo or video of someone, including from the person and from a teacher.
- Do not harass or bully other students, school staff or anyone, this includes cyberbullying using a digital device or online service.
- Do not send or share messages or content that could cause harm, including things that might be: inappropriate, offensive or abusive; upsetting or embarrassing to another person or group; considered bullying; private or confidential; and/or a virus or other harmful software.

Appendix 3: Specifications required for bring your own devices

Wireless connectivity:

The student will use the school's wireless network. The use of 3G and 4G network will not be allowed. If the device does have a SIM card, parents are required to remove it and store it at home. Parent locks will need to be turned OFF before coming to school/while at school. Students will receive support to access and log into the school Wi-Fi network however any device maintenance and/or updates must be completed outside of school.

Battery life:

The student is responsible for charging the device prior to the beginning of the school day. The device should be capable of running off its own battery for the whole school day. The school will not provide any charging services to students if their device runs out of battery.
